STARLITER

OUTDOOR PENDANT WITH 360° TWINKLING EFFECT

LUMINAIRE REF:

PROJECT REF:

The Starliter is a tubular pendant that is perforated to create a soft twinkling effect. It is ideally hung in a tree or shrub so it can freely move in the breeze. Individually supplied with a 1 metre chain, these fittings can be suspended from trees or pergolas. They look best when hung in a group of three differing sizes.

This range of hanging tree lights creates the best effects and is an excellent addition to your outdoor lighting ideas.
