

CONTOUR HD ULTRA-SLIM 9.6W IP54 LED STRIP

9.6W HD/2700K/2400K LED STRIP

LUMINAIRE REF:

PROJECT REF:

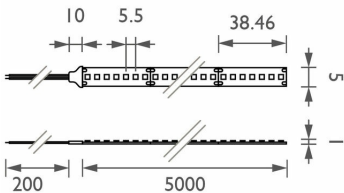

The Contour range of products are used to provide versatile linear LED lighting. The LED strip can be used to create a multitude of different solutions both inside and out being IP54. It can highlight features such as joinery, stair treads, coving or under cabinets to create floating effects where you require a line of light rather than a point source. These fantastic flexible strips are ideal for adding balance, depth and variety to your lighting scheme.

A range of profiles enables the strip to be precisely integrated and also help avoid a "dotty" effect. Contour strips can be cut every 38.46mm, soldered every 0.5m and are sold by the metre.
