TRIMLESS ADJUSTABLE WHITE WIDE 2700K

The Arine 30 is a dedicated adjustable trimless superyacht downlight. It has a patent pending precision engineered fixing mechanism - a rear fixing plate and frame, which allow positioning in different ceiling thicknesses of deckhead. The diameter of the fixing plate allows a leading full 30 degree tilt by preventing incursion from other ceiling elements.

It comes with our dedicated LED 30 engine with high CRI and superior quality light output.
