

DOWNLIGHT REINVENTED

50 Range 1982

40 Range 2018

30 RANGE 2019

OUR *smallest* EVER

OUR *smallest* EVER DOWNLIGHT RANGE

When John Cullen introduced the first halogen downlight in 1982, they were the smallest on the market. Now with our range of 30 downlights, we are able to once again reinvent this genre with even smaller discreet fittings. The new design has all the functionality and adaptability you have come to expect from the 50 and 40 range but in a new miniature downlight with “best in class” light quality and high lumen output.

NUMBERS DO
THE TALKING

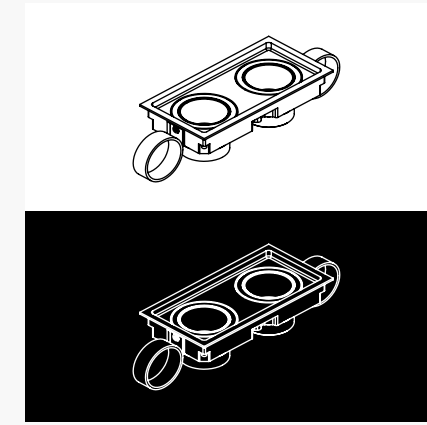

1

Minature powerful light engine offering ≥ 300 lumens.

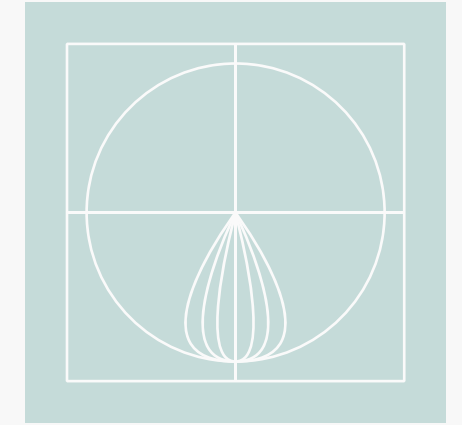

2

Stock colours to suit your scheme.

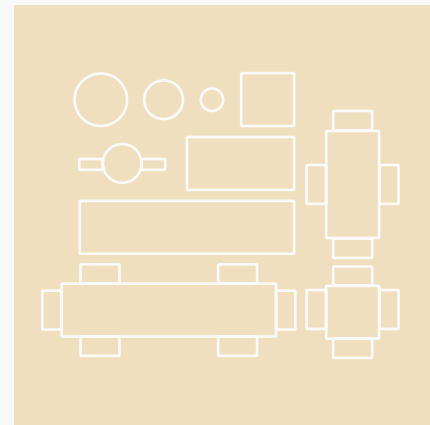

3

Beam angles to light more precisely.

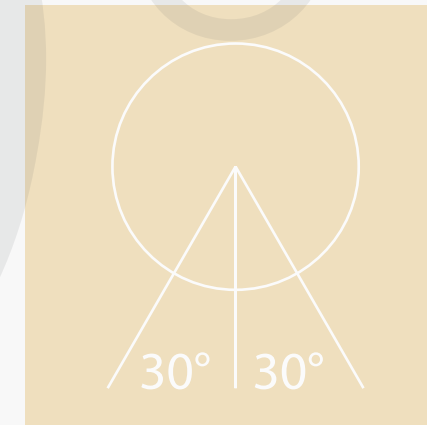

10

Different luminaire styles to choose the effect you require.

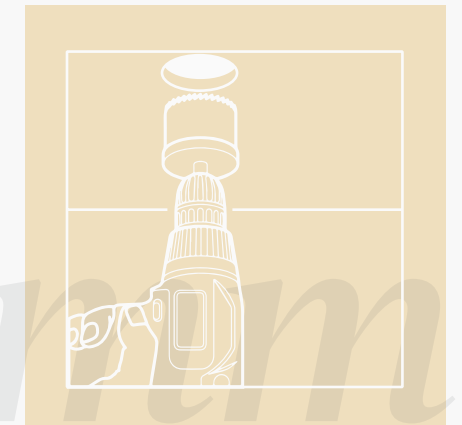

300

Tilt to direct the beam.

32

Cut out smallest.

55

Minimum recess depth required.

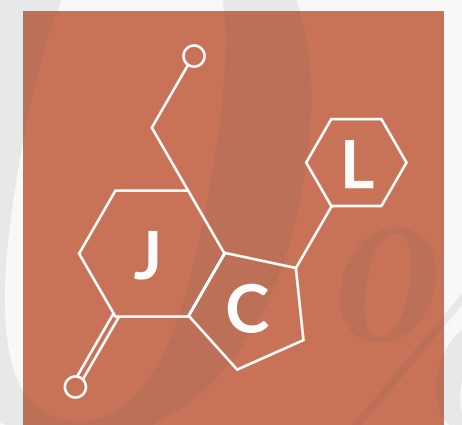

600

Combinations for you to create your ideal effects.

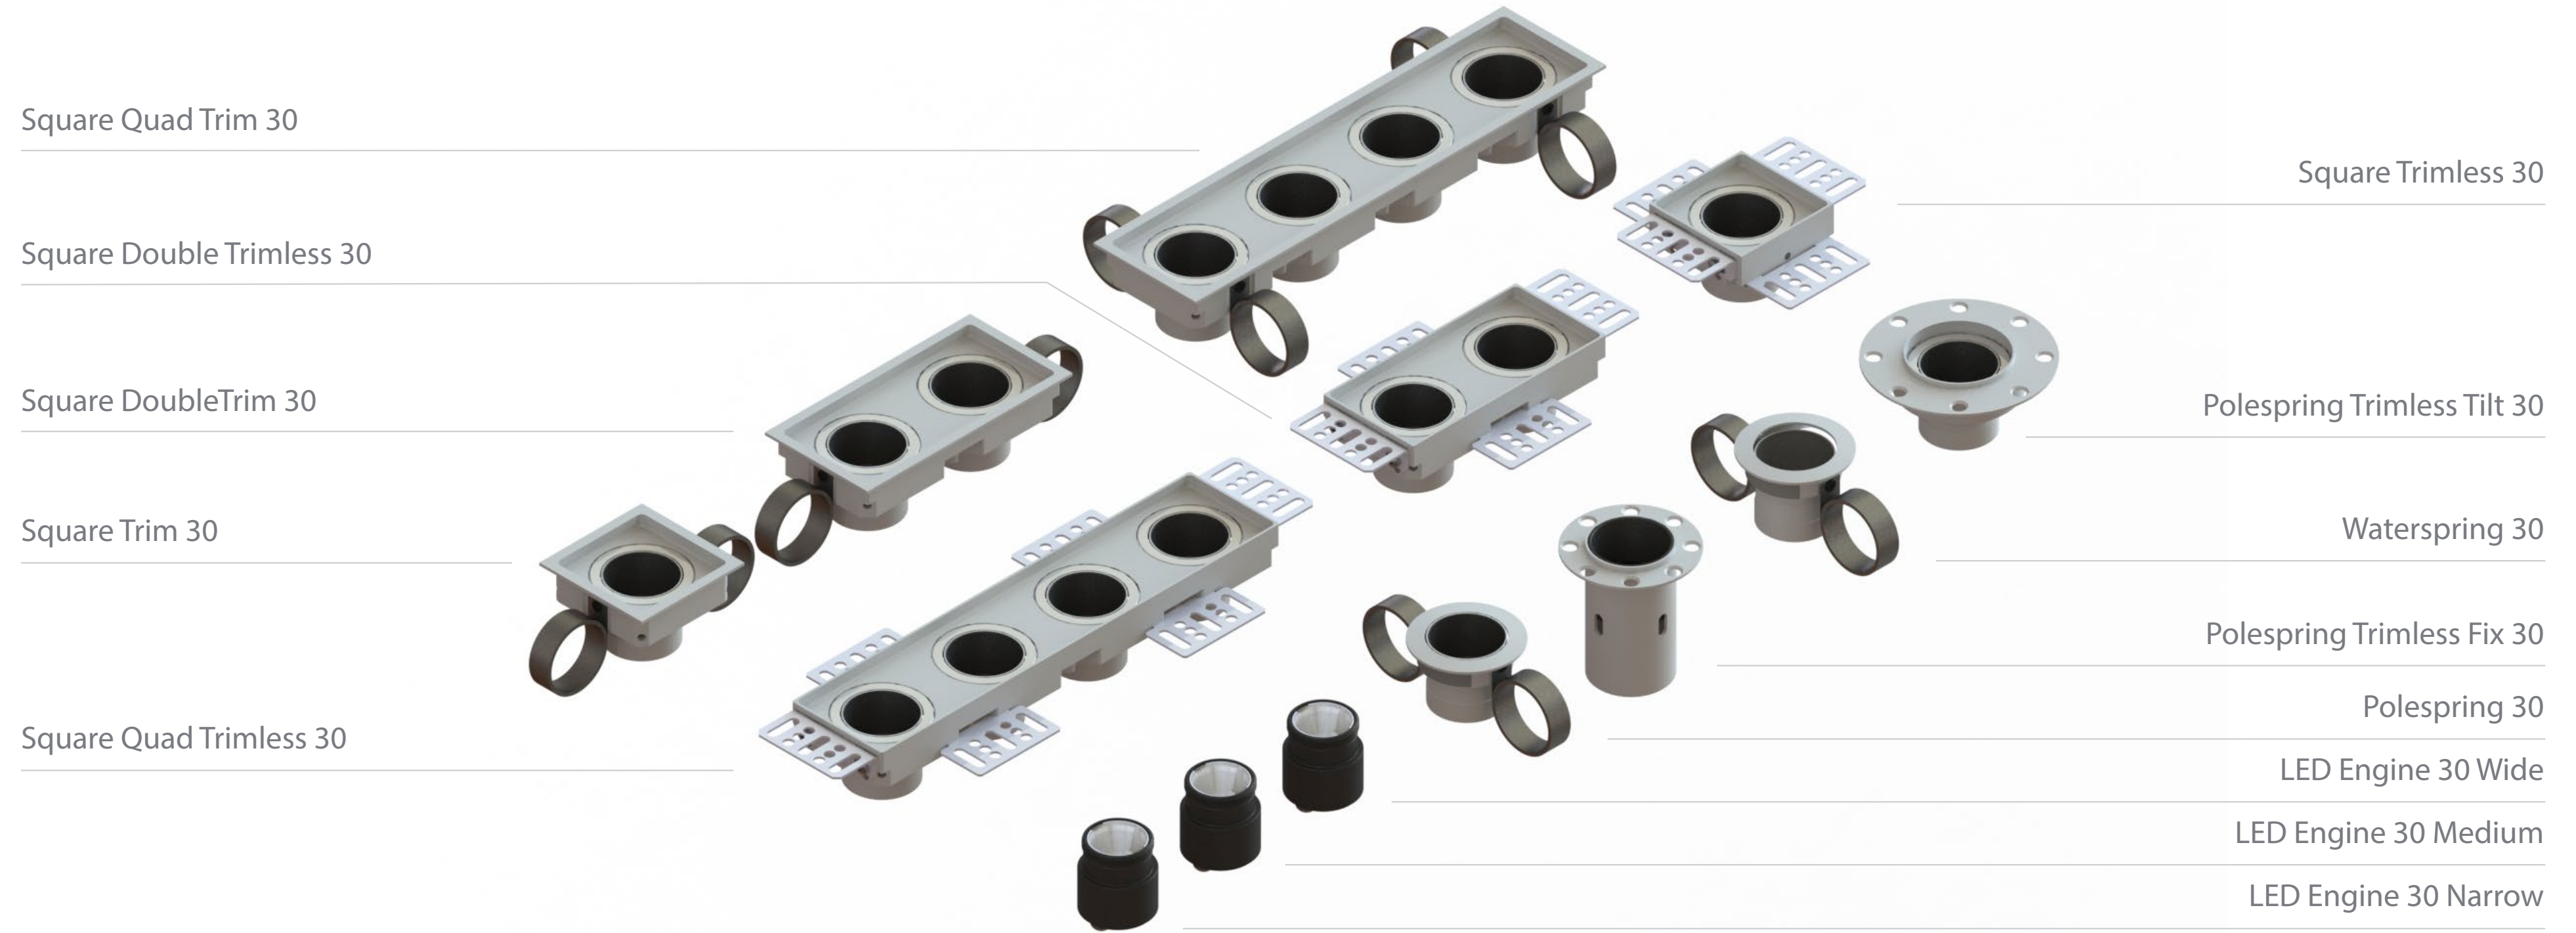

1000%

Created with our brand DNA at heart.
